Bathing and Showering Equipment for burn treatment

TR Equipment products are well established and utilized within burn units and rehabilitation treatment facilities for wound debridement.

Water can have a cooling effect on burns, or a warming effect on stiff joints or sore muscles.

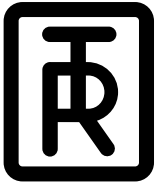

CE

Registered at Medical Products Agency, Sweden, as a MD Class 1 product, MDD 93/42EEC.

TR reserves the right to make design changes and/or improvements without notice.

TR EQUIPMENT

Burn Treatment Equipment

Hygiene Equipment
Designed for People

The following products are commonly used for treating patients in burn clinics. Caregivers benefit using TR Equipment by safely and conveniently transferring and transporting patients utilizing safe patient handling procedures.

TR 900 Bathtubs

Stainless steel baths safeguard against bacterial growth inside and outside the bath. They are easy to disinfect and resistant to staining from chemical additives.

TR 9650 Mobile Patient Lifts

All TR 900 Hi-Lo baths are available in several models and options, including a stainless or fiberglass tub option, and can be integrated with the TR 9650 Mobile Patient Lift. The system provides safe moving and handling for both patient and attendant. During the bathing cycle the client never leaves the comfort and security of the chair or stretcher.

TR 2000 Hydraulic Shower Trolley TR 3000 Battery Shower Trolley

Both trolley models are available with different stretcher lengths: 1600 - 1900 - 2100 mm. Hands free operated.

TR 4000/TR 4200 Bariatric Shower Trolley

Bariatric showering and debridement trolleys.

TR 2810 Shower Panel

Showering and disinfection panel.
